

Police Activity in La Frontera Shopping Center, November 2009-April 2010

NOTES

This 2001 photo generally shows the area included in the analysis. The data source for this report is the Police Department's Computer-Aided Dispatch (CAD) database. That means the data are drawn from the information police dispatchers enter into the computer as calls occur. The primary limitation of these data is that they may not reflect the actual nature of a call or its true final disposition. Thus, some care should be exercised in interpreting the results presented here. Traffic Stops and animal-related calls are excluded from this analysis.

Questions regarding the results presented here, the data source, or this report's preparation should be directed to:

Call dispositions are organized into the following categories: Arrest Made, Cancelled/False Alarm, No Report, Report Taken, Referred (to Other Agency), Unable to Locate, and Warning or Ticket Issued. If a category does not appear in the table above, then no calls resulted in that disposition category during the period in question.
